MISSING KEMETHY SEEN AT THE ZOO?

Wife Wants Piano and Things She Left in Husband's Care.

M. Kets Kemethy, the photographer who mysteriously disappeared from his studio, 1115 Pennsylvania avenue northwest, twelve days ago, may not have ended his life, as was supposed by his friends. A man who was said to resemble Kemethy in every way, save that he was clean shaven, was seen at the Zoo yesterday. The persons who saw this man believe it was Kemethy with his beard shaved off. They notified Mrs. Kemethy, who is living at 1131 Tenth street northwest.

Mrs. Kemethy immediately informed Capt. George Williams, of the First precinct, who has manifested a keen in-terest in her case. Inspector Boardman was also notified. The wife of the phowas also notified. The wife of the photographer has made daily trips to the First precinct station and Detective Headquarters, communicating all information she could gather and seeking any news the police had regarding the whereaboute of her husband. Kemethy's supposed appearance at the Zoobears out his wife's theory that he abandoned the studio and went in hiding in Washington or Baltimore. Several days ago Mrs. Kemethy, believing that her husband, with whom, she says she has not lived for siz years, had gone to his brother Gustav's home in Baltimore, wrote to the brother and requested him to tell her if he knew where the photographer was. She received no reply to the letter.

"I have not lived with him for six years," said Mrs. Kemethy today. "I was forced to leave him, but in so doing I left a great deal of furniture, a plano and other articles of value in the studio. The cameras and photographic supplies are as much mine as his, because I helped pay for them."

Attention is now centered upon the mall report from the American embassy in Berlin, which is now on its way to the State Department. In order to hasten action Secretary Root will probably cable Tower today directing him to wire the substance of the report.

It is generally admitted that this latest phase of the controversy places Ambassador Tower in an unenviable position. In some quarters it is held that his usefulness as the United States representative at Berlin is now at an end. Official Washington would not be at all surprised to learn of his recall at any time.

In the first place the department resents the intimation that it is too ready to publish official correspondence or air diplomatic scandals in the press. It is pointed out that the publication of Tower's report of Dr. Hill's alleged unacceptability originated in Berlin, and not in Washington, though it was reluctantly confirmed here after the receipt of the press dispatches.

Ambassador Tower is also placed in a bad light by reason of his attitude concerning his proposed resignation. The fact that he ignored the State Department; that he only made vague reply to its query as to the time he proposed to its query as to the time he proposed to its query as to the time he proposed to its query as to the time he proposed to its query as to the time he proposed to its query as to the time he proposed to its query as to the time he proposed to its query as to the time he proposed to incorporate the Sovereign Trust Company of America. Ambassador Tower is also placed in a bad light by reason of his attitude concerning his proposed resignation. The fact that he ignored the State Department; that he only made vague reply to its query as to the time he proposed to retire, and that he neglected to communicate with the department on several occasions, in accordance with the usual rules, had already caused him to lose favor with Secretary Root.

By Reports From Berlin

PARIS. March 27.—When Dr. David Jayne Hill, who is now in Paris, was requested today to give some explanation of the presentative Lovering of Massachusetts to incorporate the Sovereign Trust Company of America. Provided the desired legislation is secured, a site will be purchased and another large bank building added to the constantly growing number now in the National Capital.

The incorporators named in the bill are Arthur T. Brice, Chauncey C. Hackett and Ferederick L. Huidekoper, of the District of Columbia; Harry Baker, Portland, Me.; Dwight Breman, Newburg, N. Y.; George D. Krumbhaar, Philadelphia, and Marshall J. Gasquet, of New Orleans.

The principal offices of the company will be here, and permission is asked to establish branches in the States and Territories. The capital stock is named at \$2,000,000, to be increased with the consent of the Secretary of the Treasury.

Tilt Occurs While Discussing Car Shortage Before Committee.

Representative Cushman and J. W. foore, of the Chicago Livestock Exchange, mixed it up in great shape to-day in a hearing given by the House Committee on Interstate and Foreign Commerce on the pending bills for the relief of "car shortages."

"Shippers," declared Mr. Moore, "are willing to pay higher freight rates if they are furnished better service and

more cars for their shipments."
"I beg your parcion," broke in Cushman. "The shippers of my district, in the State of Washington, are making continual outery against the high freight rates."

"I am speaking for shippers as a whole," replied Mr. Morse in a lordly fashion. "I don't pretend to answer for your clients, because I don't know their complexion.'

Cushman subsided for a moment, but later came back with another question.
"I told you about that in my opening remarks," said Mr. Moore in a bored manner.

"I guess I'll keep still," said Cush-

AN INTERESTING CHURCH.

Kirby Malzeard Church in Yorkshire, which was burned down recently, had good deal of interesting architecture about it, says the Manchester Guardian, It stood on a Saxon site, and the oldest part of it dated from somewhere near the conquest. There were, at any rate, pieces of good Norman and early English work, although the mass of the tuilding was Perpendicuiar. Perhaps the finest thing in it is the south doorway, which is Norman of a good period, and this, fortunately, has been saved. The church records mention a curious trial which took place in the church in the seventeenth century. A woman was tried for stealing a skull out of the churchyard. Her defense was that she took the skull to put under the pillow of a sleepless friend as a charm to make her sleep. She was reprimanded and ordered to put the skull back. out it, says the Manchester Guard-

Stomach Remedies

Because Most of Them Contain Dangerous Ingredients, Which Produce the Drug Habit.

Produce the Drug Habit.

Thousands of people, having dyspepsia or stomach troubles in some form, continually "dope" themselves with all sorts of secret tonics, drugs, pills, cathartics, etc., which not only inflame and irritate the stomach and intestines, but in many cases cause the opium, morphine, and cocaine habits.

You have a right and should demand to know what any medicine contains before you take it, unless it is put up or recommended by some reputable physician. Fakes and quarks will put most anything into their secret preparations, to make you like their useless stuff so as to want more of it, until it makes you the victim of some drug habit, which will ruin your health in a short time.

Stuart's Dyspepsia Tablets are not a

THE MARIETTA AT HAITI; PADUCAH MAY GO LATER

The gunboat Marietta, which sailed from Guantanamo Wednesday for Haiti, has arrived at Port au Prince, according to a telegram received at the Navy Department today from the ship's co.

The Marietta will join the cruiser Des Moines and the gunbout Dubuque, which were dispatched to Haiti when the recent revolution developed into such serious proportions. It is expected that the gunboat Paducah, which is now at target practice at Guantanamo, will sail for Haiti within a few days to take her turn at patrol duty with the other three vessels and the several foreign warships there.

THOMAS RACER SHIPPED MISS COUNCILMAN DIES TO NORTHWEST BY BOAT

SAN FRANCISCO, March 27.-The Thomas automobile, leading in the New York to Paris race, started for Seattle today aboard the steamship City of Pueblo. At Seattle the automobile will be trans-shipped to the steamship Santa Clara, to be taken to Alaska.

This begins the second stage of the courney. From now on the autoists will encounter great danger. They hope to reach Fairbanks before the thaw sets in, and then go down the Yukep on the lice to Nome. Alaskans in this city say the feat is impossible, but the same was said of a trip across this continent in winter before the cars left. New York. The racers are undaunted, and are determined to exhaust every effort in their attempt to reach and cross the Bering straits into Siberia, thence to continue on to Parls. on to Paris.

IN A CEMETERY.

Although there are in Europe some 19,000 women and girls who earn a living as artists' models, it is strange to say that there is not ten among them who possess a perfect face and figure. The few models who fulfill the very exacting standard set by the best artists are practically engaged for so long as their youth and beauty last. This accounts for the fact that the same face and figure frequently occur in popular artists' pictures.—Woman's Life.

The leading citizen of a small country town escorted a friend on a tour of inspection through the village. The friend, who was a resident of a metropolitan city, was duly impressed by the many advantages of the little town. Finally the two men reached the cemetery. The visitor carefully looked at the various tributes and then turned to his guide. "Say, Dave," he began, "wh-wh-where do you b-b-bury your s-s-sinners?"—Judge.
